ANRC ACTION PLAN FOR 2006

OBJECTIVE	PROGRAM	ACTION	RESPONSIBLE PERSON	DEADLINE	REMARKS
I. Improvement of the transparency and predictability of the regulatory framework	Elaboration of a strategic regulatory framework for the electronic communications sector	a. Elaborate the Regulatory Strategy for the Electronic Communications Sector	DRE, DRT, DIM, DJR	Q I-IV	In 2006, ANRC will organise a series of public consultations resulting in the adoption – in Q IV - of a Regulatory Strategy Document for the electronic communications sector during 2007-2010
		b. Elaborate an operation plan for reviewing the relevant markets in the electronic communications sector	DRE	QIV	
		c. Participate in the elaboration of the Development Strategy for Broadband Electronic Communications in Romania (Ministry of Communications and Information Technology)	DRE, DRT	Q I-III	ANRC will participate in the elaboration of the broadband strategy by establishing the regulatory objectives of major importance in the development of the broadband market and by conducting market studies
II. Promoting	1. Retail market	1.1. Access and calls at fixed locations (Markets 1-6			
competition in the electronic	regulation	the retail tariffs of S.C. Romtelecom – S.A.	DRE, DJR	Q I-II	
communications sector		b. Review Decision no.1380/2003 for approving the regulation for the realization, by "Romtelecom" - S.A., of accounting separation within the internal cost	DRE, DJR	Q I-II	

accounting system c. Monitor the implementation of the carrier preselection service by S. C. Romtelecom – S.A. DIM, DRE, DRT permanently 1.2. Leased lines (Market 7 in the CE recommentation) a. Define a specific relevant market for the minimum set of leased lines DRE, DRT, DJR Q IV b. Analyse the competition level on the specific relevant market identified in view of designating the potential providers with significant power and impose specific relevant tariffs for the purpose of call termination in mobile public networks (Market 16 in the CE recommendation) Q I 2. Wholesale market 2.1. Call termination in mobile public networks (Market 16 in the CE recommendation) Q I Establish interconnection tariffs for the purpose of call termination in the mobile public networks operated by S.C. Mobifon S.A and S.C. Orange Romania S.A. based on the long-run incremental costing model Q I 2.2. Unbundled access to the Local Loop (RUO) and the Standard Access to the Local Loop (RUO) and the Standard Access to the Local Loop (RUO) and the Standard Access to the Local Loop (RUO) and the Standard Access to the Local Loop (RUO) and the Standard Access to the Local Loop (RUO) and the Standard Access to the Local Loop (RUO) and the Standard Access to the Local Loop (RUO) and the Standard Access to the Local Loop (RUO) and the Standard Interconnection Agreement based on the RUO. Q III-IV 2.3. Origination, transit and call termination in the fixed public networks (Market 8, 9, 10 in the CE recommendation) Q III Review the Reference Interconnection Offer (RIO) and the Standard Interconnection Ag				1	1	
selection service by S.C. Romtelecom – S.A. 1.2. Leased lines (Market 7 in the CE recommendation) a. Define a specific relevant market for the minimum set of leased lines DRE, DRT, DJR Q III b. Analyse the competition level on the specific relevant market identified in view of designating the potential providers with significant power and impose specific DRE, DRT, DJR Q IV collation 2.1. Call termination in mobile public networks (Market 16 in the CE recommendation) Q I collation Establish interconnection tariffs for the purpose of call termination in the mobile public networks operated by S.C. Mobifon S.A and S.C. Orange Romania S.A. based on the long-run incremental costing model Q I 2.2. Unbundled access to the local loop (Market 11 in the CE recommendation) a Adopt a decision for reviewing the Reference Offer for the Unbundled Access to the local loop, elaborate the tariff for access to the local loop, elaborate the tariff calculation methodology and impose the necessary obligations on S.C. Romtelecom S.A. Q III-IV Review the Reference Interconnection Offer (RIO) and the Standard Interconnection Agreement based on the RIO DRE, DRT, DJR Q II 2.4. Broadcasting (Market 18 in the CE recommendation) a. Define aspecrific relevant markets for services of transmission through the networks used for audio visual communications in view of providing audio-visual programmes to the end-users. DRE, DRT, DJR Q III b. Analyse the competition on the specific relevant market			accounting system			
1.2. Leased lines (Market 7 in the CE recommendation) a. Define a specific relevant market for the minimum set of leased lines DRE, DRT, DJR 0 III b. Analyse the competition level on the specific relevant market identified in view of designating the potential providers with significant power and impose specific obligations DRE, DRT, DJR 0 IV 2. Wholesale market regulation 21. Call termination in mobile public networks (Market 16 in the CE recommendation) DRE, DJR 0 I 2. Wholesale market regulation 21. Call termination in mobile public networks (Market 16 in the CE recommendation) 0 I 2. Wholesale market regulation 21. Call termination in the mobile public networks (Market 11 in the CE recommendation) 0 I 2. Unbundled access to the Local Loop (Market 11 in the CE recommendation) 0 I 0 I 3. Adopt a decision for reviewing the Reference Offer for the Unbundled Access to the Local Loop (RUO) and the Standard Access Agreement based on the RUO. DRE, DJR 0 III-IV b. Analyse the methods for the regulation of the tariffs for access to the local Loop, elaborate the farff calculation methodology and impose the necessary obligations on S.C. Comtelecom S.A. DRE, DRT, DJR 0 III 2.3. Origination, transit and call termination in the fixed public networks (Markets 8, 9, 10 in the Standard Interconnection Agreement based on the RIO DRE, DRT, DJR 0 II 2.4. Broadcasting (Market 18 in the			c. Monitor the implementation of the carrier pre-	DIM, DRE, DRT	permanently	
a. Define a specific relevant market for the minimum set of leased lines DRE, DRT, DJR Q III b. Analyse the competition level on the specific relevant market identified in view of designating the potential providers with significant power and impose specific obligations DRE, DRT, DJR Q IV 2. Wholesale market regulation 2.1. Call termination in mobile public networks (Market 16 in the CE recommendation) Call the CE recommendation Sctabilish interconnection tariffs on the long-run incremental costing model DRE, DRT, DJR Q I 2.2. Unbundled access to the local loop (Market 11 in the CE recommendation) DRE, DJR Q I a. Adopt a decision for reviewing the Reference Offer for the Unbundled Access to the local loop (RUO) and the Standard Access Agreement based on the tariffs for access to the local loop, elaborate the tariff calculation methodology and impose the necessary obligations on S.C. Romtelecom S.A. DRE, DJR Q III-IV 2.3. Origination, transit and call termination in the fixed public networks (Markets 8, 9, 10 in the Standard Interconnection Agreement based on the RIO DRE, DRT, DJR Q III 2.4. Broadcasting (Market 16 in the CE recommendation) Call comp. elaborate the tariffs of transmission through the networks used for services of transmission through the networks used for audio- visual communications in view of providing audio-visual programmes to the end-users. DRE, DRT, DJR Q III 2.4. Broadcasting (Market 16 in the CE recommendation) DRE, DRT, DJR<			selection service by S.C. Romtelecom – S.A.			
of leased lines 0 b. Analyse the competition level on the specific relevant market identified in view of designating the potential providers with significant power and impose specific DRE, DRT, DJR 0 IV 2. Wholesale market regulation 2.1. Call termination in mobile public networks (Market 16 in the CE recommendation) 0 IV 2. Wholesale market regulation 2.1. Call termination in mobile public networks (Market 16 in the CE recommendation) 0 IV 2. Wholesale market regulation 2.1. Call termination in mobile public networks (Market 11 in the CE recommendation) 0 IV 3. Adopt a decision for reviewing the Reference Offer the ECE recommendation) 0 IV 0 4. Adopt a decision for reviewing the Reference Offer the CD pR, DJR 0 0 III-IV 5. Analyse the methods for the regulation of the tariffs for access to the local loop, elaborate the tariff racculation methodology and impose the necessary obligations on S.A. 0 III-IV 2.3. Origination, transit and call termination in the fixed public networks (Market 8, 9, 10 in the CE recommendation) 0 III 8. Adopt a design (Market 18 in the CE recommendation) 0 III III 9. Define a/several specific relevant markets for services of transmission invough the networks used or sudio visual communications in view of providing audio-visual programmes t			1.2. Leased lines (Market 7 in the CE recommendation	ion)		
b. Analyse the competition level on the specific relevant market identified in view of designating the potential providers with significant power and impose specific obligations Q IV 2. Wholesale market regulation 2.1 Call termination in mobile public networks (Market 16 in the CE recommendation) Q I Establish interconnection tariffs for the purpose of call termination in the mobile public networks operated by S.C. Mobifon S.A and S.C. Orange Romania S.A based on the long-run incremental costing model DRE, DIR Q I 2.2. Unbundled access to the local loop (Market 11 in the CE recommendation) Adopt a decision for reviewing the Reference Offer for the Unbundled Access to the local loop (RIO) and the Standard Access to the local loop, (RIO) and the Standard Access to the local loop, elaborate the tariffs for access to the local loop, and impose the necessary obligations on S.C. Romtelecom S.A. Q III-IV Q III-IV Review the Reference Interconnection Agreement based on the RIO Review the Reference Interconnection Offer (RIO) and the Standard Interconnection Agreement based on the RIO Q III Q III Review the Reference Interconnection Offer (RIO) and the Standard Interconnection Agreement based on the RIO DRE, DRT, DJR Q III 2.4. Broadcasting (Market 18 in the CE recommendation) Review the Reference Interconnection Offer (RIO) and the Standard Interconnection Agreement based on the RIO DRE, DRT, DJR Q III 2.4. Broadcasting (Market 18 in the CE recommendation) a. Define a/several specific relevant markets for			a. Define a specific relevant market for the minimum set	DRE, DRT, DJR	QIII	
2. Wholesale market regulation 2. Wholesale market 2. Wholesale market regulation 2. Using the providers with significant power and impose specific obligations DRE, DJR Q I 2. Wholesale market regulation 2.1. Call termination in mobile public networks operated by S.C. Mobifon S.A and S.C. Orange Romania S.A. based on the long-run incremental costing model DRE, DJR Q I 2.2. Unbundled access to the local loop (Market 11 in the CE recommendation) Adopt a decision for reviewing the Reference Offer for the Unbundled Access Agreement based on the RUO. DRE, DJR Q I 3. Adopt a decision for reviewing the Reference Offer for the Unbundled Access Agreement based on the RUO. DRE, DJR Q II 4. Adopt a decision for the targits to access to the local loop, (RUO) and the Standard Access Agreement based on the RUO. DRE, DJR Q III-IV 5. Analyse the methods for the regulation of the tariffs calculation methodology and impose the necessary obligations on S.C. Romtelecom S.A. 2.3. Origination, transit and call termination in the fixed public networks (Markets 8, 9, 10 in the CE recommendation) Review the Reference Interconnection Offer (RIO) and Review the Reference Interconnection Offer (RIO) and Review the Reference Interconnection Agreement based on the RIO DRE, DRT, DJR Q III 2.4. Broadcasting (Market 18 in the CE recommendation) a. Define a/several specific relevant markets for services of transmission through the networks used for audio- visual communicatons in view of providing audio-visual progra			of leased lines			
2. Wholesale market regulation 2.1. Call termination in mobile public networks (Market 16 in the CE recommendation) 2. Wholesale market regulation 2.1. Call termination in mobile public networks (Market 16 in the CE recommendation) DRE, DJR 0.1 2. Unbundled access to the local loop (Market 11 in the CE recommendation) DRE, DJR 0.1 2.2. Unbundled access to the local loop (Market 11 in the CE recommendation) 0.1 3. Adopt a decision for reviewing the Reference Offer for the Unbundled access to the local loop (RUO) and the Standard Access Agreement based on the RUO. DRE, DJR 0.1 b. Analyse the methods for the regulation of the tariffs for access to the local loop (alborate the tariff calculation methodology and impose the necessary obligations on S.C. Romtelecom S.A. DRE, DJR 0.111-1V Review the Reference Interconnection Offer (RIO) and the Standard Interconnection Agreement based on the RIO DRE, DRT, DJR 0.11 2.4. Broadcasting (Market 18 in the CE recommendation) DRE, DRT, DJR 0.11 c. Standard Access Agreement based on the RIO. DRE, DRT, DJR 0.11 b. Analyse the methods for the regulation of the tariffs for access to the local loop, elaborate the tariff calculation methodology and impose the necessary obligations on S.C. Romtelecom S.A. DRE, DRT, DJR 0.11 2.3. Origination, transit and call termination in the fixed public networks (Markets 8, 9, 10 in the Standard Intercon			b. Analyse the competition level on the specific relevant	DRE, DRT, DJR	QIV	
2. Wholesale market 2.1. Call termination in mobile public networks (Market 16 in the CE recommendation) 2. Wholesale market 2.1. Call termination in the mobile public networks (Market 16 in the CE recommendation) regulation 2.1. Call termination in the mobile public networks operated by S.C. Mobifon S.A and S.C. Orange Romania S.A. based on the long-run incremental costing model 0.1 2.2. Unbundled access to the local loop (Market 11 in the CE recommendation) 0.1 3. Adopt a decision for reviewing the Reference Offer for the Unbundled Access to the Local Loop (RUO) and the Standard Access Agreement based on the RUO. DRE, DJR 0.1 b. Analyse the methods for the regulation of the tariffs for access to the local loop, elaborate the tariff calculation methodology and impose the necessary obligations on S.C. Romtelecom S.A. DRE, DJR 0.111-1V 2.3. 	3. Numbering	a. Amend Decision no.140/2002 on the adoption of the	DRT, DJR	QI
	resources regulation	National Numbering Plan (closing the NNP, routing codes		
		for number portability etc.) and Decision no.141/2002 on		
		the application and granting procedure regarding the		
		licenses for the use of the numbering resources		
		b. Adopt a decision on the implementation of number	DRT, DRE, DJR,	QI
		portability	DIT	
		c. Monitor the process of implementation of number	DRT, DRE, DIT	Q II-IV
		portability		
	4. Various	a. Present – in Government Session – the draft Law on	DJR	QI
	regulations	the regime of infrastructure for electronic		
		communications networks (initiated in collaboration with		
		MCTI)		
		b. Establish a new procedure for solving the requests	DJR, DRE, DRT,	Q -
		addressed ANRC in view of establishing the conditions	DIM	
		for the shared use of the facilities destined to support		
		elements of electronic communications networks (under		
		the Government Emergency Ordinance no.79/2002 on		
		the general regulatory framework communications,		
		approved, with amendments and completions, by Law		
		no.591/2002, with the subsequent amendments and		
		completions)		
		c. Amend Decision no. 1333/2003 the general	DJR, DIM, DRT	QII
		authorization regime for the provision of electronic		
		communications networks and services		
		d. Amend Decision no. 118/2003 on the procedure for	DRT, DJR	QII
		the authorisation of the postal services providers		
		e. Monitor the process of implementing the access and	DIM, DRE, DJR,	permanently
		interconnection regime for the purpose of its smoother	DRT	
		implementation		
		f. Launch consultation on establishing the terms for the	DRT, DJR	QII
		implementation of ENUM		
		g. Elaborate a regulation regarding the management of	DRT, DJR	QIV
		ENUM – 0.4.e164.arpa		
		h. Monitor VDSL tests	DRT	permanently
III. Promote the	1. Implementation	a. Organise tenders for the designation of the Universal	DIM, SIC, DRE,	Q I-IV
end-users' interest	of Universal Service	Service providers for the installation of at least 200	DJR	
CHA-ABELB III(CICS)			DJI
