

INTERNATIONAL SPACE RADIO MONITORING MEETING

1 - 3
SEPTEMBER 2026

BUCHAREST
ROMANIA

Name & Organisation

The International Telecommunication Union (ITU)

Presentation title

ITU regulatory framework on harmful interference to radiocommunication services

Abstract

This presentation provides key elements of the ITU international regulatory framework on harmful interference to radiocommunication services. Update on the situation of cases of harmful interference reported to the ITU and on actions taken by ITU Radio Regulations Board and Radiocommunication Bureau since ISRMM26 is also provided.

Short bio

Mr Vo works in the Space Strategy and Sustainability Division of the Space Services Department at the ITU Radiocommunication Bureau. Mr. Vo's current responsibilities include addressing the issue of harmful interference affecting space services, addressing the problem of reservation of orbit and spectrum capacity without actual use, and ensuring compliance with regulatory requirements as per international treaty of spectrum use to deliver satellite services.
